

Fortinet setup administrator SSO SAML M365

Notes

Jan 2026 - Fortigate firmware ~~v7.4.0~~ ⁷v8.6.5 and ~~v7.4.0~~ working ok

FORTINET SIDE

Setup under “Security Fabric > Fabric Connectors

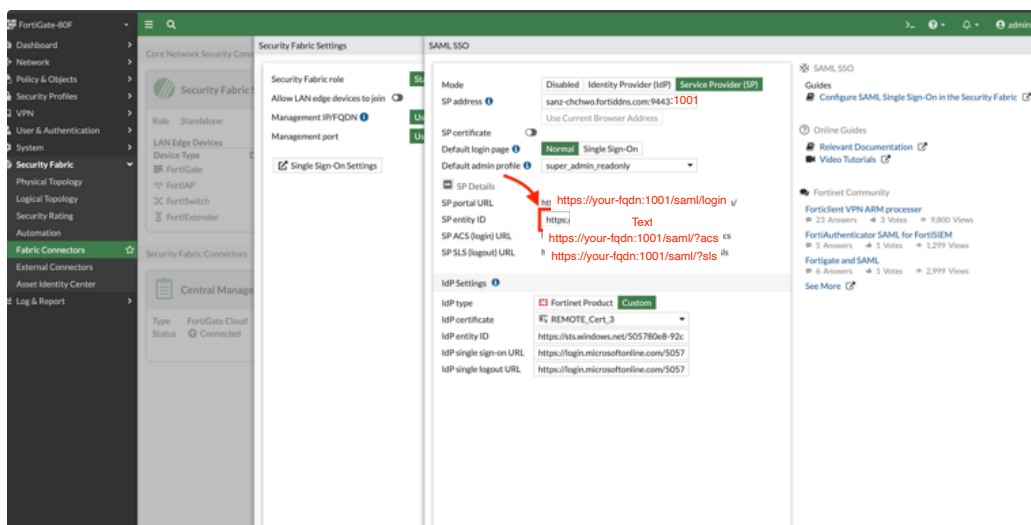

Edit “Security Fabric”

Select Single Sign-On Settings

Select Service Provider (SP)

Expand the “SP Details” and change the SP Entity to have https instead of http

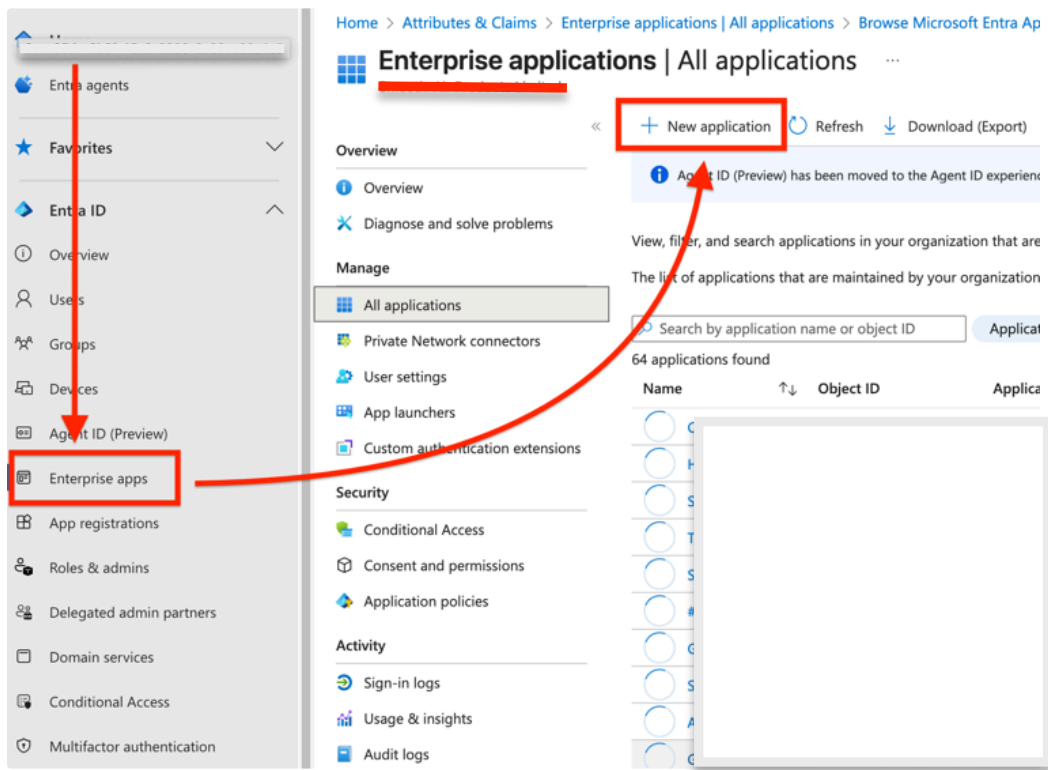

Memory note, drop to CLI and edit the SP entity ID if cant edit https in gui

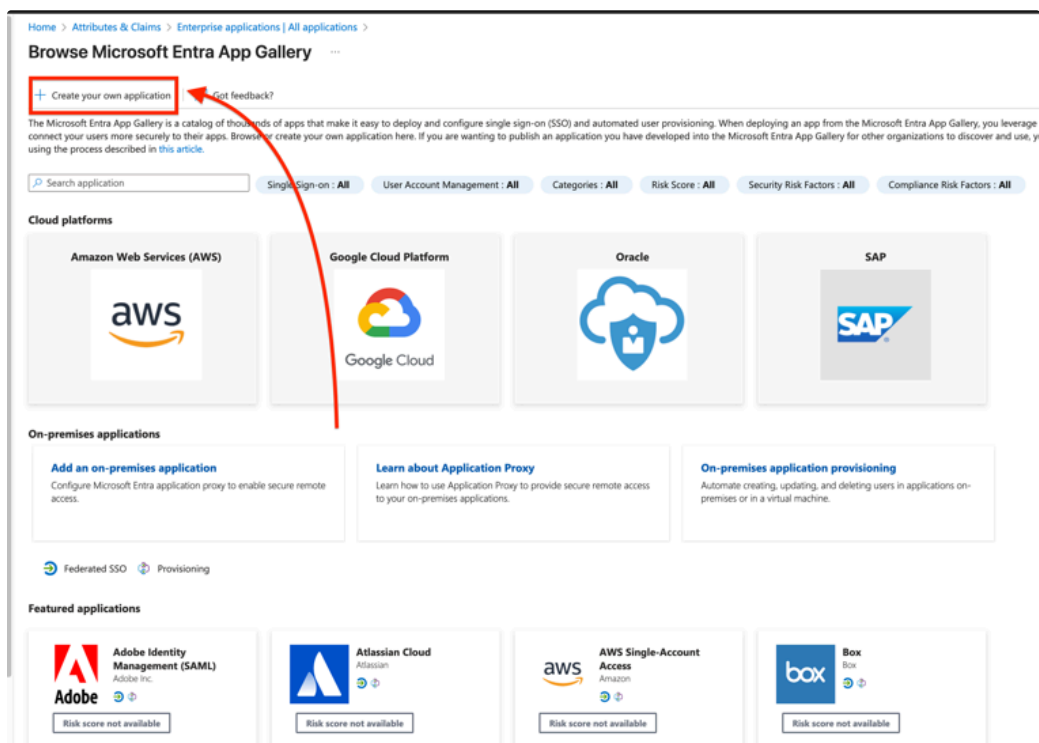

Enter MS Entra links for SAML under IdP certificate Settings and import certificate from MS Entra SAML app.

MS ENTRA SIDE [Microsoft Entra admin center](#)

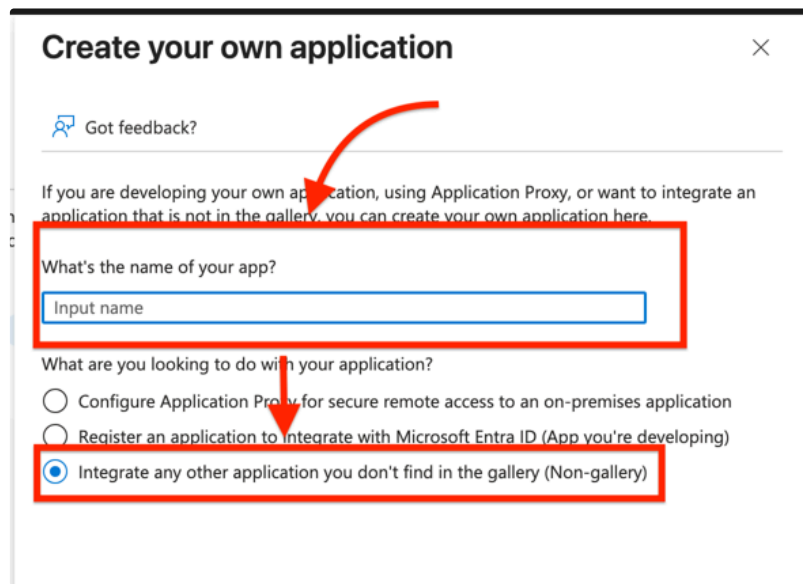

Setup new custom app

Create new app > create own application

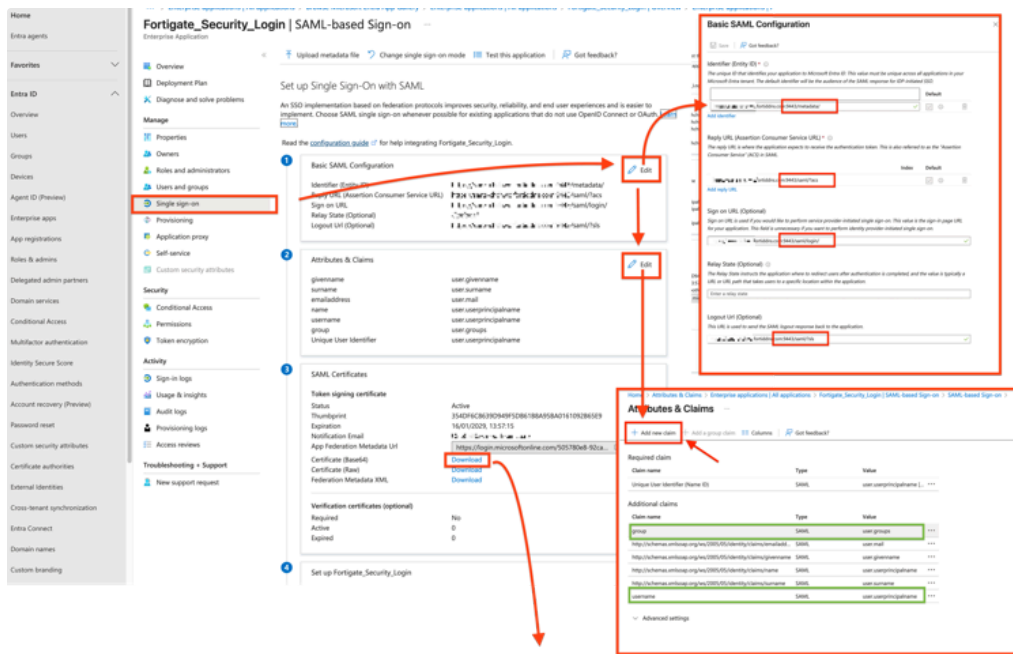

Give it a name eg: “Fortigate_Security_Login”

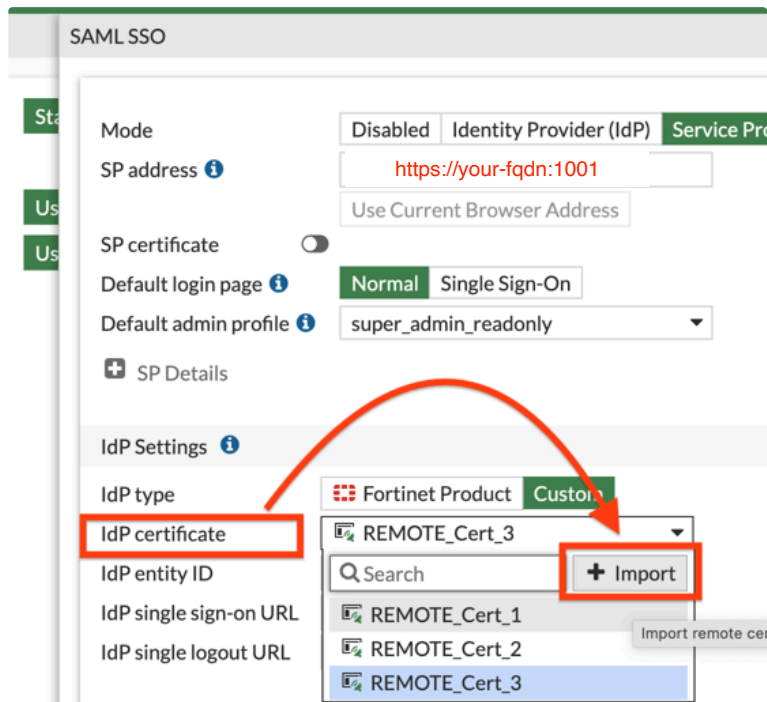

The screenshot shows a dialog box titled "Create your own application" with a close button (X) in the top right corner. Below the title is a link "Got feedback?". The main text reads: "If you are developing your own application, using Application Proxy, or want to integrate an application that is not in the gallery, you can create your own application here." Below this is a text input field labeled "What's the name of your app?" with the placeholder text "Input name". A red box highlights this input field, and a red arrow points from the text above to it. Below the input field is the question "What are you looking to do with your application?" followed by three radio button options: "Configure Application Proxy for secure remote access to an on-premises application", "Register an application to integrate with Microsoft Entra ID (App you're developing)", and "Integrate any other application you don't find in the gallery (Non-gallery)". A red box highlights the third option, and a red arrow points from the text above to it.

Use SAML as the single sign on method

Add your values as supplied from the Fortinet device. You must also add 2 (two) additional attributes to MS Entra app being setup. “username” (user attribute) and “group” (group attribute)

Download the Certificate (Base64) and upload it to the Fortinet “IdP certificate”

You must also edit the certificate features from MS Entra app to sign and verify the application.

 - Access reviews
- Troubleshooting & Support
 - New support request

Read the [configuration guide](#) for help integrating Fortigate_Security_Login

- Basic SAML Configuration**
 - Identifier (Entity ID)
 - Reply URL (Assertion Consumer Service URL)
 - Sign-on URL
 - Relay State (Optional)
 - Logout URL (Optional)
- Attributes & Claims**
 - givenname user.givenname
 - surname user.surname
 - emailaddress user.mail
 - name user.userprincipalname
 - username user.userprincipalname
 - group user.group
 - Unique User Identifier user.userprincipalname
- SAML Certificates**
 - Token signing certificate**
 - Status Active
 - Thumbprint 354D6C8639D94
 - Expiration 16/01/2025, 13:57
 - Notification Email
 - App Federation Metadata URL <https://login.microsoftonline.com/OneCall@smooth-air.co.nz>
 - Certificate (Base64) [Download](#)
 - Certificate (Raw) [Download](#)
 - Federation Metadata XML [Download](#)
 - Verification certificates (optional)**
 - Required No
 - Active 0
 - Expired 0
- Set up Fortigate_Security_Login**

You'll need to configure the application to link with Microsoft Entra ID

 - Login URL <https://login.microsoftonline.com/OneCall@smooth-air.co.nz>
 - Microsoft Entra Identifier <https://sts.windows.net/OneCall@smooth-air.co.nz/>
 - Logout URL <https://login.microsoftonline.com/OneCall@smooth-air.co.nz/Logout>
- Test single sign-on with Fortigate_Security_Login**

SAML Signing Certificate

Manage the certificate used by Microsoft Entra ID to sign SAML tokens issued to your app

[Save](#) [+ New Certificate](#) [Import Certificate](#) [Got feedback?](#)

Status	Expiration Date	Thumbprint
Active	16/01/2025, 13:57:15	354D6C8639D94

Signing Option: **Sign SAML response and assertion**

Signing Algorithm: SHA-256

Notification Email Addresses: OneCall@smooth-air.co.nz

Add users to the application, or/and setup a security group on M365 and add users to this security group to allow specific users to use SSO sign-on.
